

Welcome to Solön Golfclub

The Story

Sollerö Golf Club was founded in 1992. The course was designed by the English golf architect Jeremy Turner, with the purpose to create a championship course. There were 18 challenging golf holes where each hole is in its own room.

The Sollerön Golf Club went bankrupt in 2019, everything was sold out and the golf course was left to its fate. In the summer of 2020, the nature took over the golf course, it became wild with grass higher than the height of an iron 9.

In the fall of 2020, an engaged team started the work to open the golf course again, they managed to gather the founding's and together with the Sollerön residents a great commitment, a lot of energy and can-do spirit we managed to open in May 2021 the new golf course Solön Golf club was born and we call it the golf course of opportunities, we are now in our second season we are so proud and wish you a warm welcome.

The course

From the old 18 hole golf course we present an exciting course of 9 holes with 3 par 3 holes, 4 par-4 holes and 2 par 5 holes which gives par 35, where all your clubs comes to play, we hope you enjoy!
